### Spreading Knowledge Through Entertainment

The Science Film Festival is organized by [Goethe-Institut](#) with the support from the Department of Education (DepEd), the Department of Science and Technology (DOST), SM Cinema, and GMA Network. The festival officially opens on November 12, 2018 with a special screening of the award-winning documentary special of GMA Public Affairs hosted by Atom Araullo, "Philippine Seas". The documentary features

the exploration and expedition on the 13-million hectare Philippine Rise and its potentially rich source of natural gas and other resources.

Dr. Ulrich Nowak-Goethe-Institut Philippinen, and Dr. Ruby Christobal-DOST-SEI, opened the Science Film Festival 2018 with the director and producer of "Philippine Seas". This 2018, the Science Film Festival in the Philippines, invites visitors to enjoy 30 science films and to explore the theme, "FOOD REVOLUTION". With this year's theme, the festival aims to discuss one of the biggest dangers to the planet which is our need for food and the hard truth in meeting the demands of a fast growing global population.

### Science Film Festival Schedule

From November 13 to December 07, film screenings will follow at select public school and science high schools nationwide. Screenings for the general public are available at the following partner venues:

- [Museo Pambata](#)
- [The Mind Museum](#)
- Manila Ocean Park
- [Philippine Science Centrum](#)
- [The National Libraries of the Philippines](#)

Just click the links for detailed information on the films, and to view their respective screening schedule (check regularly for updates).
