RAUM

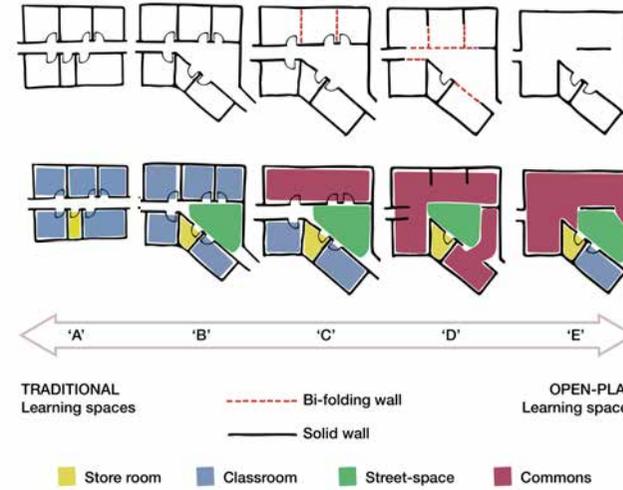

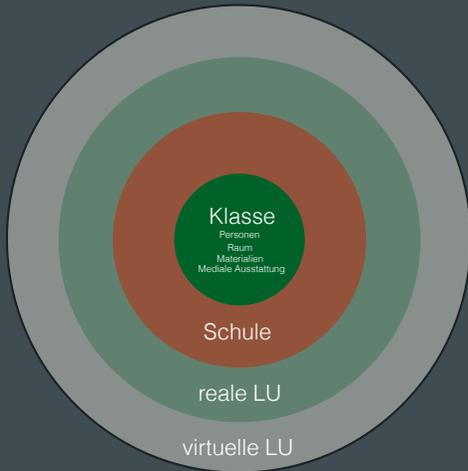

Figure 1: Dovey and Fisher's (2014) learning spaces types, as adapted in Imms, Cleveland, and Fisher (2016).

Technical Report 1/2017, Type and Use of Innovative Learning Environments in Australian Schools, S.12

Table 1: The five types of physical learning spaces

Of the five types of learning spaces illustrated below, please indicate the percentage of each type that is prevalent in your school. Please ensure that your answers total 100 percent.

- 1 Type A - Traditional closed classrooms entered by a corridor.
- 2 Type B - Traditional classrooms with breakout space
- 3 Type C - Traditional classrooms with flexible walls and breakout space
- 4 Type D - Open plan with the ability for separate classrooms
- 5 Type E - Open plan with some adjoining spaces
