Our blended learning exam preparation course offers an excellent way to prepare for the GCSE Examination at British schools or colleges.

Past experience has shown that students who participated actively in this course could improve their predicted grade and gain the grade 9 exam result they wanted. This course will **improve your listening and reading comprehension** and the **accuracy of your writing and speaking** skills and will **boost your confidence** in dealing with the assessment papers.

The course provides a thorough training of all skills that are required to master the GCSE -Level examinations successfully. Discussions and written exercises will focus on the **topics relevant to the new GCSE-level examinations**. There will also be grammar revision to improve students' accuracy in speaking and writing.

The course is designed as Blended Learning course. This concept combines the **flexibility** of working autonomously with **regular support** from a Goethe-Institut tutor. During the course there will be three classroom sessions at the Goethe-Institut London on **Saturday 15.2., Saturday 7.3.2020 and Saturday 28.3.2020**. Students will be given access to numerous online exercises and activities in the online phases which can be completed in their own time and at their own pace. Our tutors will provide support during the online activities.

### How does the course work?

- 3X Classroom lessons - participants meet at the Goethe-Institut London
- 6 Online phases between classroom lessons provide continuous support from your tutor and your group in completing individual exercises and group activities which amount to two to three hours per week.
