The Goethe-Institut / Max Mueller Bhavan Kolkata (www.goethe.de/kolkata) the Alliance Française du Bengale (<http://bengale.afindia.org>) and the British Council, Kolkata (<https://www.britishcouncil.in>), in collaboration with the Kolkata based gallery CIMA (<http://www.cimaartindia.com/>) and Kala Bhavana, Visva Bharati University, Santiniketan, West Bengal (www.visvabharati.ac.in) are organizing the third interdisciplinary Indo - European Residency Project Kolkata. The residency takes place in Kolkata, West Bengal, India and in Santiniketan, West Bengal, India and lasts eight weeks (seven weeks in Kolkata and one week in Santiniketan). The start of the stay is planned for October 2019.

For the Indo-European Residency Project Kolkata, four artists practicing different art forms (one from Germany, France, United Kingdom and India) will work and explore the city together, for seven weeks in Kolkata and one week in Santiniketan. A studio space is provided in Kolkata as well. During their stay, the artists will meet for a productive exchange with cosmopolitan and culturally interested people, artists, NGOs and others in West Bengal.

The aim of this residency is the creation of an individual or collective art project during the stay in India. The engagement, with fellow artists from different countries, along with personal artistic experiences will help create a new cultural space for inspiring ideas and producing entrancing results.

At the beginning of the interdisciplinary Indo-European Residency Project Kolkata, the residents are expected to do a public presentation of their artistic work and their planned project in the form of a short audio-visual presentation of their previous works and the project planned for Kolkata in front of an audience. Also at the end of the residency, a 'work in progress' or a 'collaborative creation' should be presented in the city for a week.

In addition to pursuing their own project, the residents are expected to get involved with the local arts and culture scene, as we believe that creative inputs from outside mutually important for the artist in the city as well as the artists in residence.
