Resume:

President of IFLYTEK Beijing Research, Vice President of IFLYTEK AI Research, He graduated from University of Science and Technology of China in 2003 with a bachelor degree in Electronic Science and Technology and received his PHD degree in Pattern Recognition & Intelligent System from Institute of Automation, Chinese Academy of Sciences.

He has been researching in the fields of Speech Processing, Natural Language Processing and other artificial intelligence technologies like smart Education for a long time. He led the team that won about ten championships in international technical evaluation, for example: the first prize in International Oral Translation (English to Chinese as well as Chinese to English) in 2014's IWSLT competition, and the first place in Machine Reading Comprehension testing(SQUAD). He is a member of the AIIA(Artificial Intelligence Industry Alliance of China) expert committee and Vice leader of technology and industry working group of AIIA , Young Expert of Internet Association of China .
