Please note

These resources are designed to be implemented optimally with a focus on the content knowledge as well as language. CLIL is flexible; however, to enable the learning of new content and/or skills through the Target Language some code switching between the students’ first language and the target language might be required. Assessment may be in the form of observation, conversation or a product.

Focus Questions: How does a wound heal? What is the cause of minor injuries? How do cuts happen and how do they heal?

Aspects of the 5-6 Band Achievement Standard being addressed through this Lecture: Suggested aspects of the Achievement Standard for the proposed Assessment Tasks are noted numerically on the following page next to each task. A full listing of all aspects of the Achievement Standard is to be found on the final page, noting that the numbering system is not from ACARA, but rather developed for the purpose of presenting this series of Unit Planners.

Australian Curriculum: German 5-6 Band Achievement Standard (F-10 Sequence)

1. Students use written and spoken German for classroom interactions, to carry out transactions, and to share ideas and opinions, relate experiences and express feelings.
2. Students use complete sentences in familiar contexts to ask questions such as, *Bist du fertig? Was machst du jetzt? Verstehst du das?* respond to requests and share experiences of learning, for example, *Ich kann gut sprechen, aber ich finde das Lesen und Schreiben schwierig.*
3. Students use descriptive and expressive vocabulary, including adjectives such as *aufgeregt, glücklich, nervös, sauer* and *traurig*, to express feelings and make statements such as *Ich nehme ein Käsebrötchen.*
4. Students use appropriate intonation for simple statements, questions and exclamations, and correct pronunciation, for example, for the two different pronunciations of *ch*.
5. Students gather and compare information from different sources about social and natural worlds, and convey information and opinions in different formats to suit specific audiences and purposes.
6. Students describe characters, events and ideas encountered in texts, and re-create imaginative texts to reflect their imaginative experience.
7. When creating texts, students manipulate modelled language to describe current, recurring and future actions, for example, *Wir gehen morgen schwimmen. Kommst du mit? Es geht mir nicht gut.*
8. Students produce original sentences with common regular and irregular verbs in the present tense, including limited forms of the modal verbs *dürfen* and *müssen* and some common separable verbs such as *mitbringen* and *fernsehen*.
9. Students use adjectives, adverbs and adverbial phrases to qualify meaning, for example, *viel Wasser, neue Schuhe; lieber, oft, jeden Tag.*
10. Students explain aspects of German language and culture, recognising that there are not always equivalent expressions in English, and create a range of bilingual texts to support their own language learning and the school community.
11. Students describe aspects of their intercultural interactions that are unfamiliar or uncomfortable, and discuss their own reactions and adjustments.
12. Students give examples of how German language and culture are continuously changing and are influenced by other languages and cultures.
13. Students identify and apply some of the systematic sentence structure and word order rules of German.
14. Students identify rules for pronunciation and apply phonic and grammatical knowledge to spell and write unfamiliar words, for example, words containing *ch, j, w* and *z*, and diphthongs such as *au, ei, eu* and *ie*.
15. Students apply the conventions of commonly used text types, and identify differences in language features and text structures.
16. Students give examples of the variety of ways German is used by different people in different contexts.
17. Students make connections between culture and language use, and identify ways that language use is shaped by and reflects the values, ideas and norms of a community.
