

LANGUAGE COURSES IN THE CONTEXT OF SKILLED LABOUR MIGRATION AT GOETHE-INSTITUT THAILAND

The Goethe-Institut is the cultural institute of the Federal Republic of Germany with a global reach. We promote knowledge of the German language abroad and foster international cultural cooperation. We convey a comprehensive image of Germany by providing information about cultural, social and political life in our nation. Goethe-Institut Thailand offers intermediaries of skilled workers the opportunity to prepare skilled workers from Thailand in general language and culturally for living and working in Germany.

Due to the first language, language learning experience, learning culture and much more, a relatively long learning period can be assumed, especially with regards to higher levels. For this reason the Goethe-Institut Thailand recommends a supervised learning training during the initial phase of the course, including homework supervision and the training of language learning strategies. From level B1 onwards, the learning load increases due to the increasing complexity of the language. Furthermore, due to the expected learning experience and the level of education a homogeneous group with regards to the profession is recommended.

Goethe-Institut Thailand
18/1 Soi Goethe, Sathorn 1
Bangkok 10120
THAILAND
