

# LANGUAGE COURSES AND EXAMINATIONS

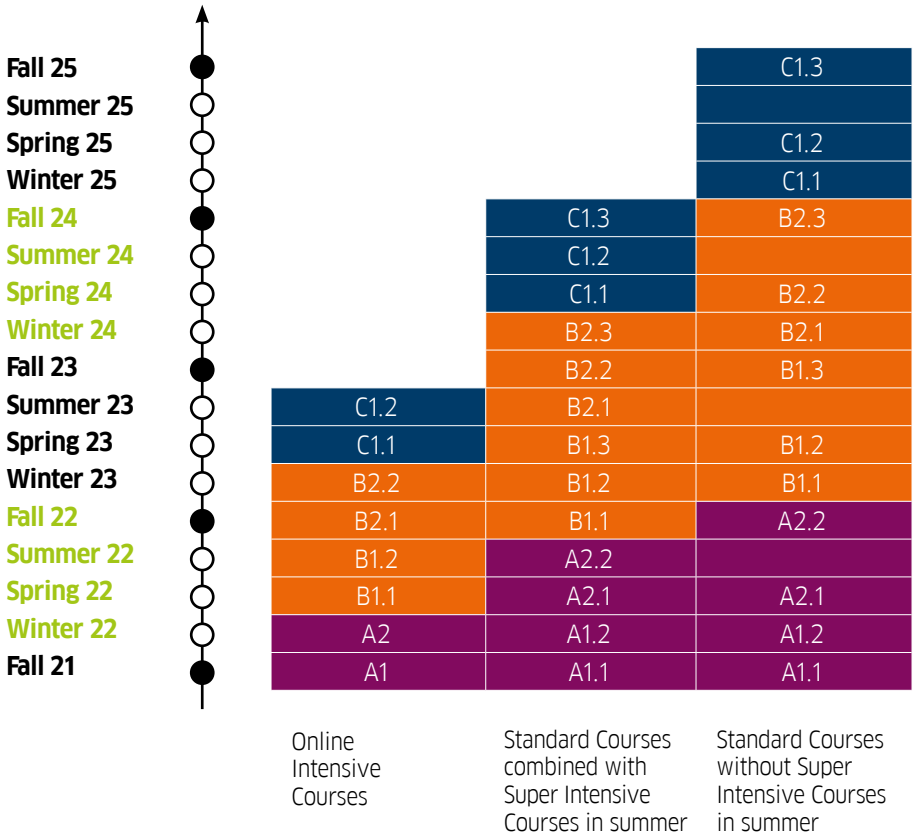

Fall Trimester  
Sep - Dec 2021

Goethe-Institut Cyprus

**GOETHE  
INSTITUT**

Sprache. Kultur. Deutschland.

**Example:** Eleni is 16 years old and wants to study at a German university two years from now. She is a total beginner at German. With our new online intensive courses she can start in the fall trimester of 2021 and reach the B2.2 level in the spring of 2023 already. She can then sit the TestDaF exam and enter the university in fall 2023.

In 2021, the Goethe-Institut Cyprus is celebrating its 60st anniversary! We are proud to say that we have helped generations of people to learn German, pursue their careers and thus, to have become a part of the Cypriot community! More and more people in Cyprus are learning German. Join a language course at the Goethe-Institut Cyprus and enjoy a modern learning environment with a long local tradition!

The most far-reaching novelty that we are introducing this year is the switch from a semester-based programme to a trimester-based one which constitutes a big improvement for our students in many ways. The new trimester programme allows you to join courses more frequently during the year and reach your desired level faster. It gives you more flexibility in planning your future!

In addition, we have modernised our classrooms and teaching material with the implementation of the latest generation of interactive whiteboards and textbooks that come with free learning apps for your smartphones which allow you to study wherever you are and whenever you feel like it.

Furthermore, we proudly announce the continuation of our very own online courses that the Goethe-Institut has developed based on our Moodle-platform last year. These courses have been a great success worldwide and continue to be received enthusiastically among our students. This year, the portfolio has been extended to include the B2 and C1 levels for adults and the first online courses for teenagers. The online courses are intensive. You can cover one whole level in only one or two trimesters!

We started the year by introducing our first computer-based exams at the levels B1 and B2 of the GOETHE-ZERTIFIKAT. These exams have been received very positively by our examinees, claiming to feel more comfortable during the exams at the laptops and more in control with the structuring of their writings and their time management.

Learning German has never been as flexible and quick as at the Goethe-Institut Cyprus. Only here you will find a perfect blend of experience and modernity. We welcome you to share your journey with us!

The Goethe-Institut Cyprus offers computer-based exams of the GOETHE-ZERTIFIKAT B1 and B2.

What are the advantages of computer-based exams?

- The **keyboard** allows you to type and edit your text more quickly and freely - in addition, your text will be more legible.
- The **headset** has a higher audio quality than a CD-player and eliminates any outside noise.
- Browsing through your tasks on a screen feels familiar, always keeping an eye on the **digital clock** at the top of the browser window.
- **Change pages with one click**, have a **clear overview** on the tasks you have already completed and those you still have to.
- Finally, you will get the **results** of your digital exam **much faster** than with a paper-based one..

Please note that the new computer-based exams are taking place at the Goethe-Institut Cyprus. Your **physical attendance is required**.

The oral part of each examination is still paper-based and done with real face-to-face interaction in our house.
