

1 NVAIR - an art center in a rural area in West Ukraine with International AIR programs. Established in 2017 to commemorate a Revolution of Dignity and support Ukrainian youth artists.

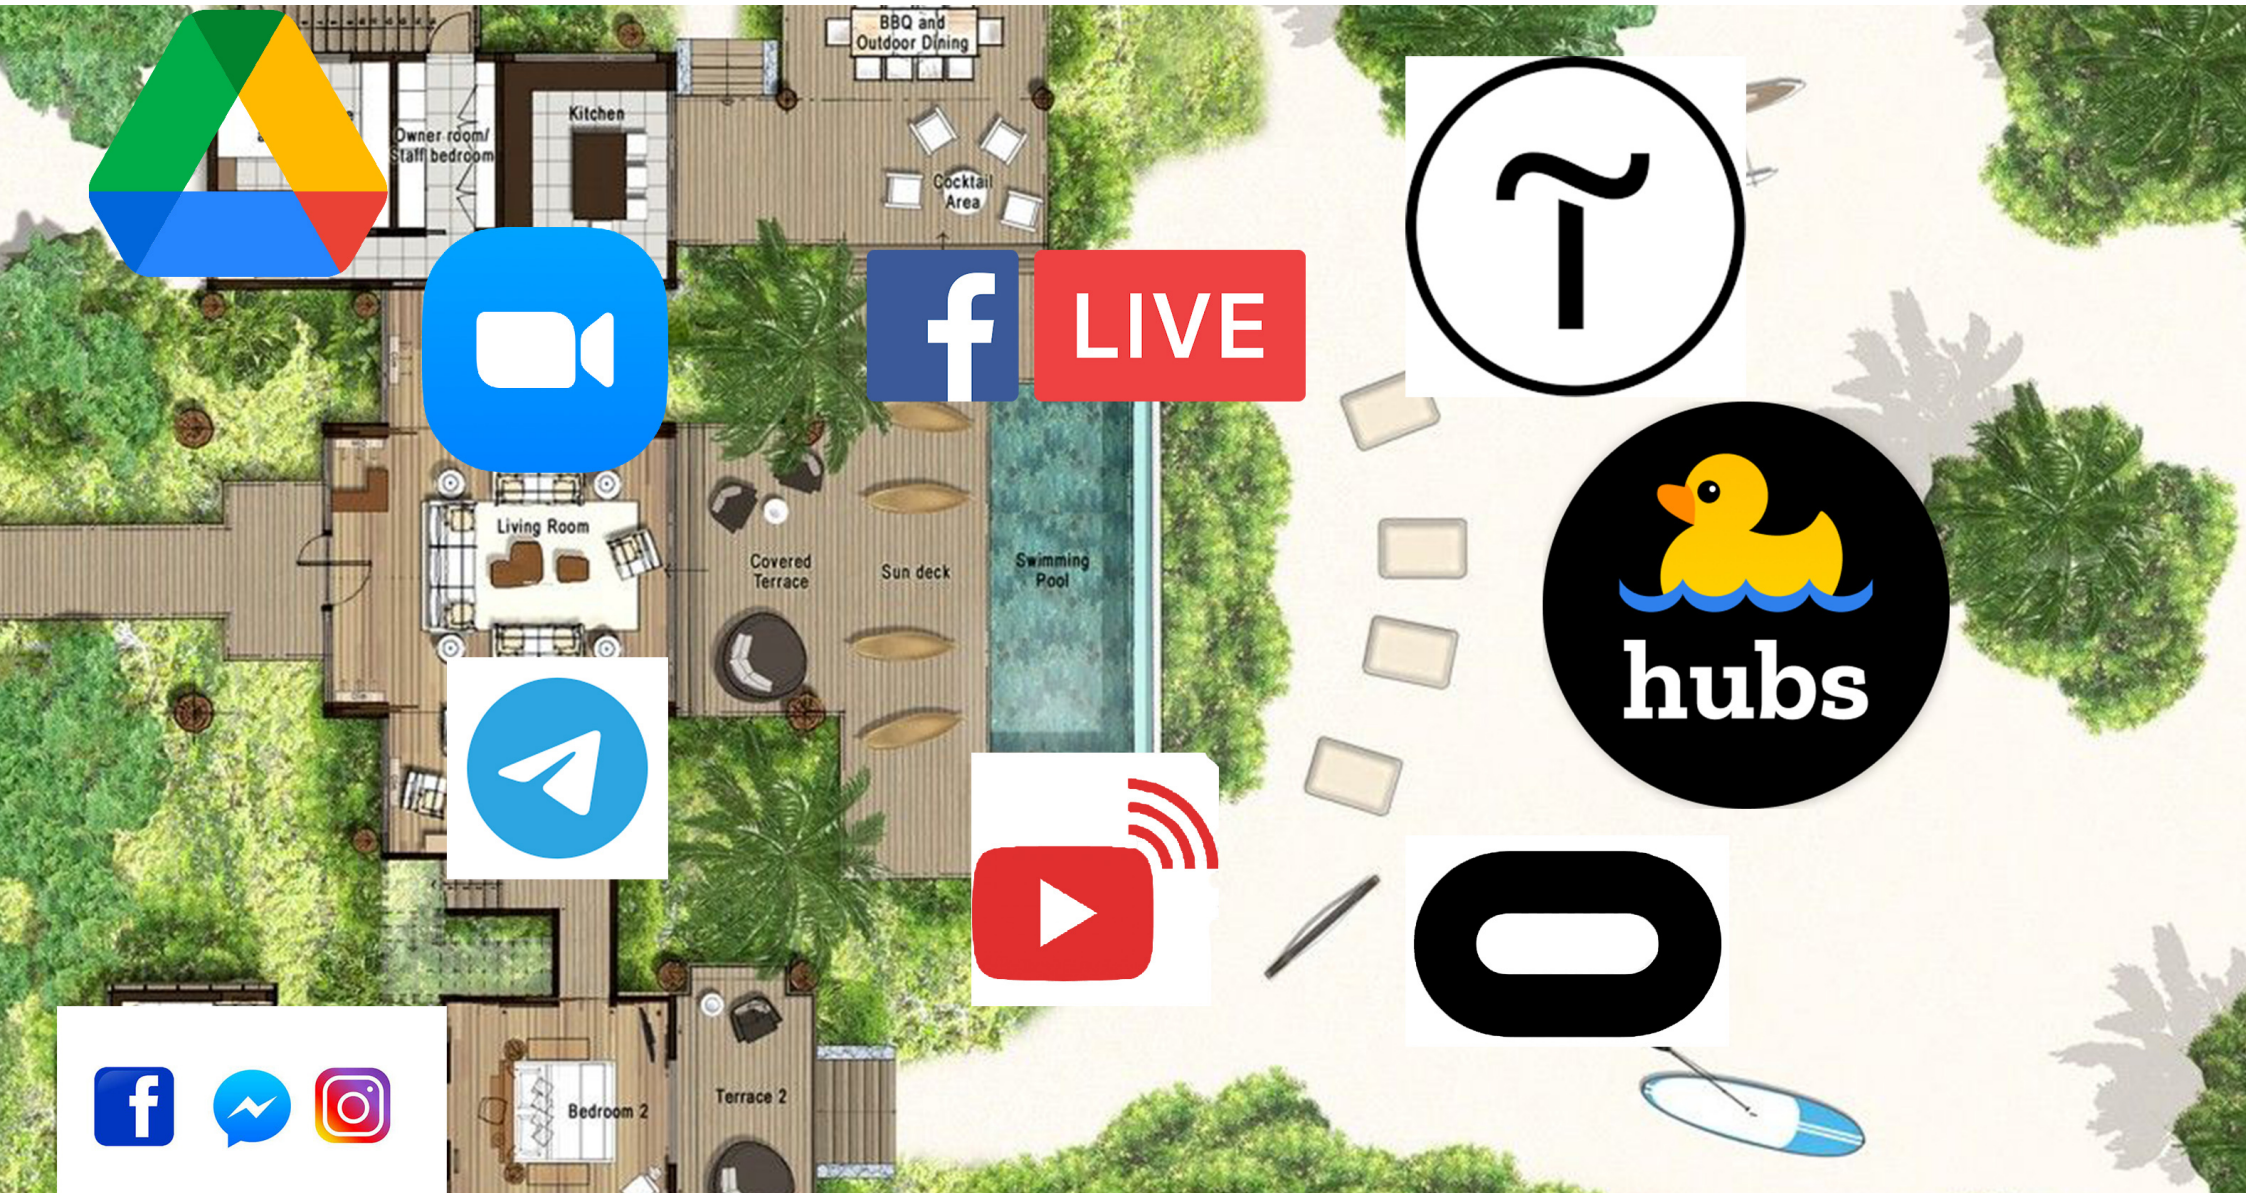

2 Since 2018 we have international exchange program for visual art

3 The pandemic time pushes us to open online and virtual experiences.
At first, we opened the 3D gallery on [Kunstmatrix](#).

4 But it was not enough and can't replace living together in the art residency program. The next step was a plan to simulate the art residency experience + Mozilla Hubs

Bohdan
Liudmyla

5 In 2020 we opened the first online exchange program Artist is Absent. It was the start of big training before the war. In the program take part 2 Ukrainian and 2 German artists

6 The results of the program we presented in physical space used VR helmets and Zoom to connect with artists from different cities and countries.
We mixed reality and virtuality

7 International Conferences for exchange best practices online and virtual art residency programs

DIGITAL CONFERENCE

2021

SEPTEMBER

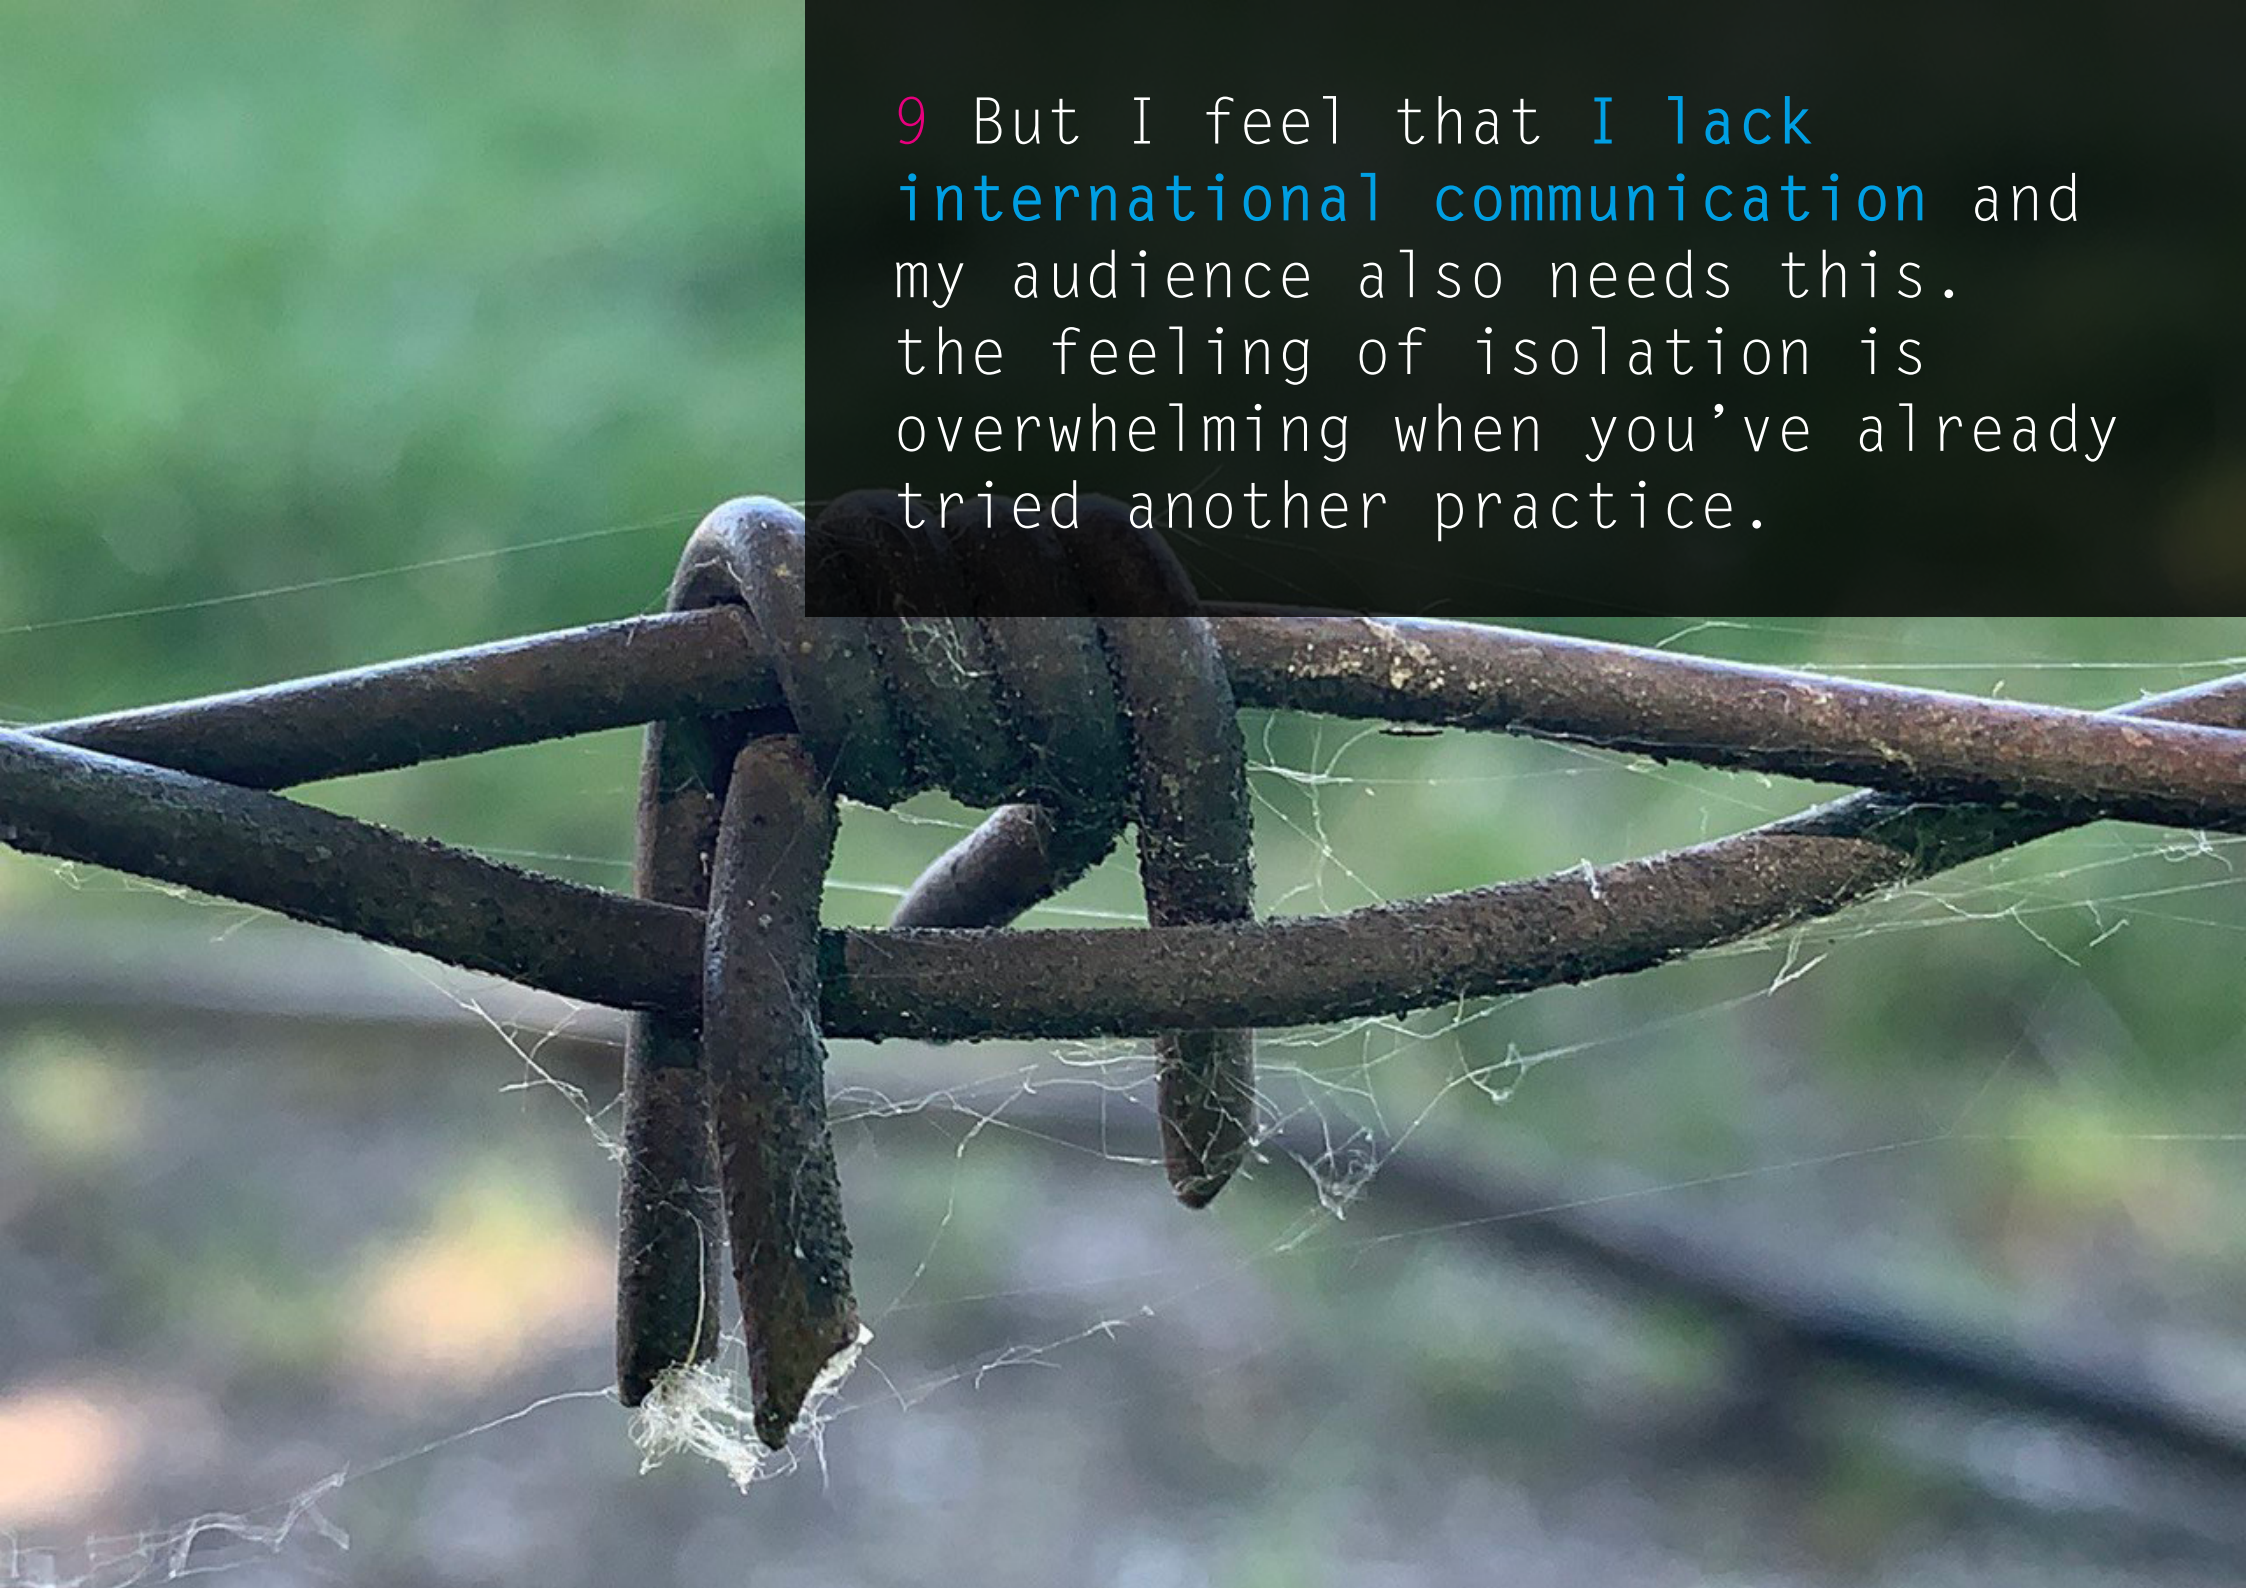

8, 10-11 & 14, 16-17

8 In the summer of 2021, we returned to our usual practice and had 2 programs **only for Ukrainian artists** due to the pandemic, which made international exchanges difficult.

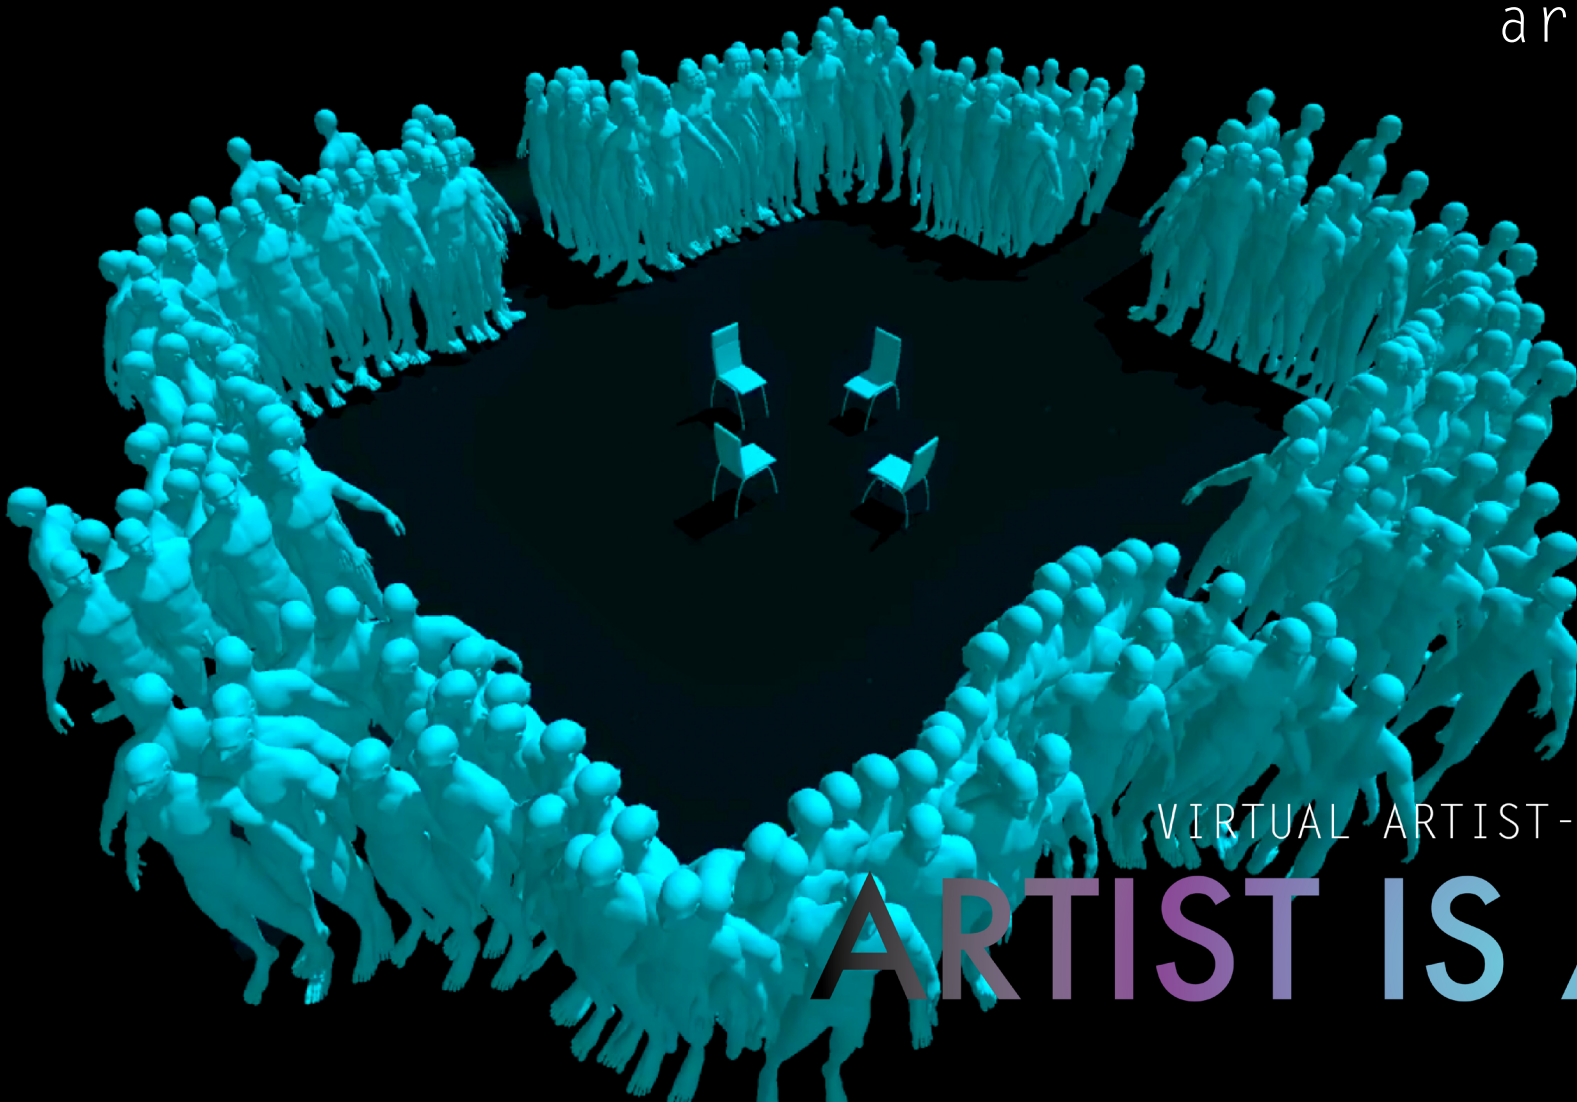

9 But I feel that I lack international communication and my audience also needs this. the feeling of isolation is overwhelming when you've already tried another practice.

10 I contact my partners' organizations from [Kosice](#) and [Freising](#) and we discuss my dream

11 I was fascinated by the idea of organizing a worldwide virtual program for digital artists and talking about AI and technology for art in contexts around the world

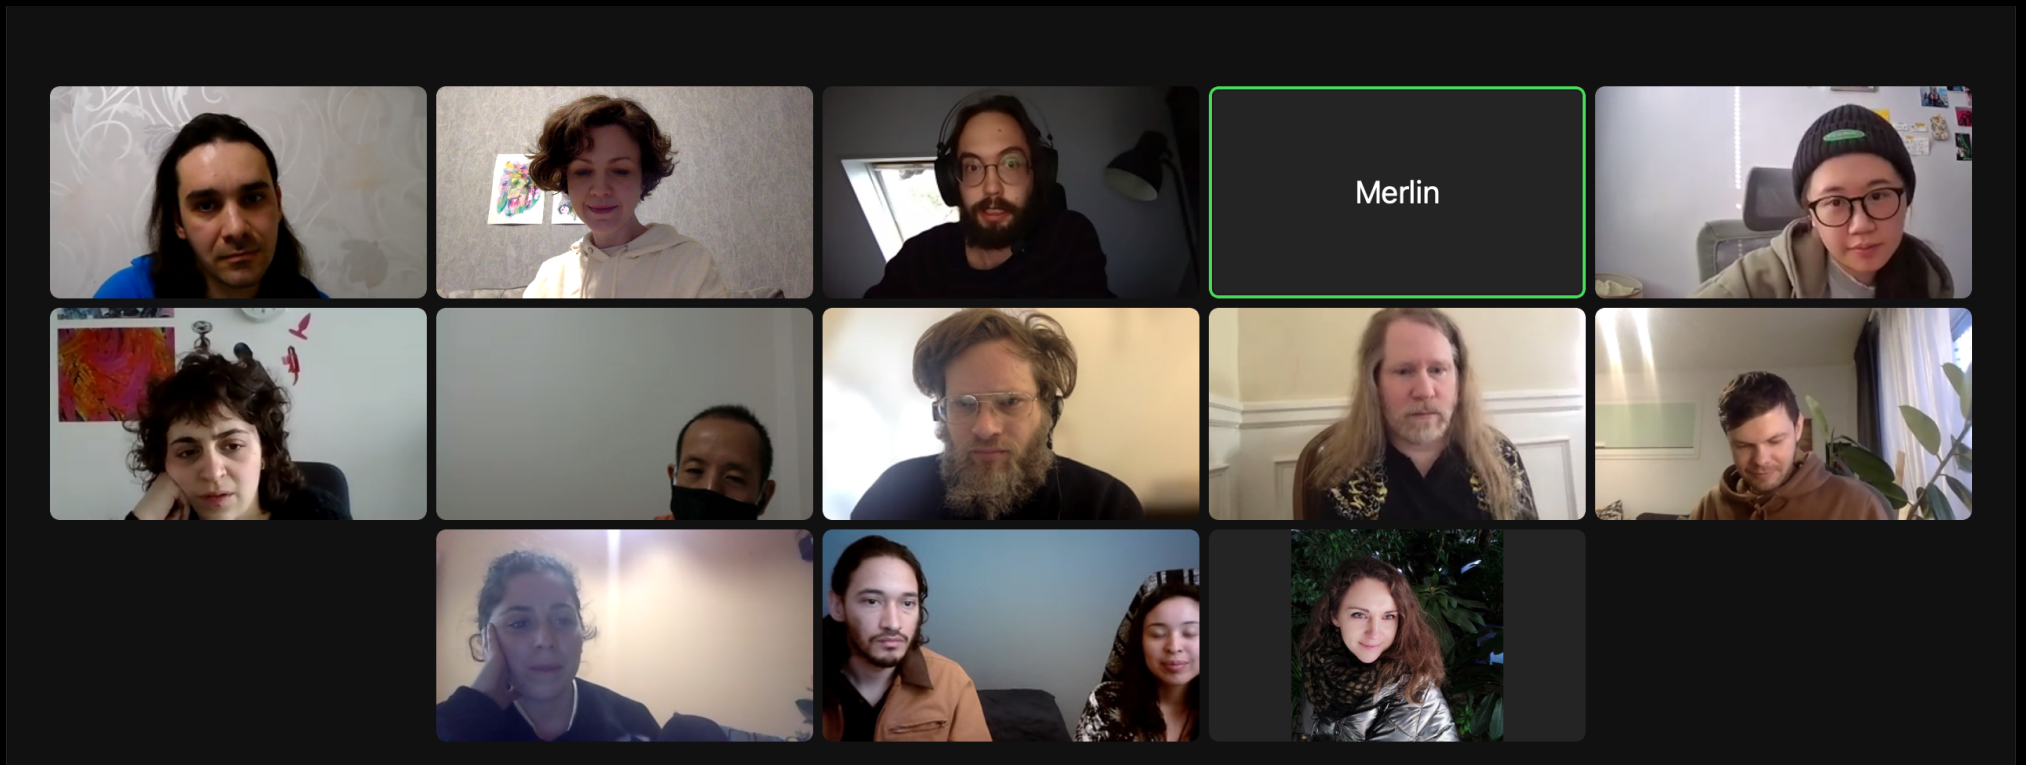

2022

VIRTUAL ARTIST-IN-RESIDENCE PROGRAM

ARTIST IS ABSENT

12 We start new winter program Artist is Absent 2022. We received applications from 5 continents and start hosted an online global cohort of artists on 1 of Feb 2022.

War becomes in the middle of the program and it is still frozen.

13 On February 25, we launched a new forced art-residency program for internal refugees.

14 After a few first weeks, **we start doing art.**
I had a new experiment. Artists physically live in
the art center but we realize that physical art is
now not in time.

15 In a few months we created the 4 projects and new program “Internal Elements”
Intuition, Hailing, Love and Rescue.
Mediums: photos, illustrations, motion art, sound.

Karina Sofit

A story about people who fled to the West of Ukraine under shelling, and became part of the creative team. They are young, strong and at the same time exhausted, but very motivated with a thirst for life and action.

18 Thanks to the support and solidarity of the international art community, we are living this war in special conditions. We lived in an artistic campus with our families and created art.

19 NVAIR have great experience and intellectual resources for developing a new version of digital art mobility.
