## Where is Crocodile?

## **Original play by Steven Fawkes**

Rationale: The intention is that this short play could be used by pupils after their first playing of THE LANGUAGE MAGICIAN game, when they know the characters and the storyline (and may be asking if they can play again!)

Teachers are welcome to vary the number of characters, edit the text to include appropriate language, add their own ideas etc. to make it as useful as possible, but it is **not for commercial use. Copyright of this text remains with the author.** 

A French version of the play is available and other language versions will follow in time.

This is one of a suite of teacher-generated resources we hope to build up with contributions from classrooms and teachers over time in a variety of languages. If you create any activity (however simple) in the style of THE LANGUAGE MAGICIAN, please consider contributing it!

Details of where these teacher-generated resources will be housed will appear on the TLM website:
