

## OUR SCHOOL

Our school is a secondary school located in the south of Berlin. Students are between 12 and 18 years old and learn either English or French as first or second foreign language, respectively.

Our school is very active in music, drama, politics and languages. We enjoy long-standing exchanges with schools in France and the UK.

Recently, we have successfully applied for a short term Erasmus+ project: (Re)connecting Europe. It aims to reestablish contacts within Europe after exchanges were interrupted due to covid. Its objective is to raise awareness of Europe and the European family, encourage life-long language learning and open students up to less frequently learnt languages.

Our two Erasmus partners are a Catalan and a Finnish school. We are looking for a third partner to add another language like Gaelic for example.

## OUR EXCHANGE GROUP

In the framework of our current Erasmus+ short term project, we are looking for partners regarding our English bilingual class. Students are 15 / 16 years old and experienced language learners.

At Beethoven-Gymnasium, they study geography and history in English. Many speak other languages like Hungarian, Turkish or Hindi on top of that.

All of them are curious to meet new friends and experience new cultures. The group would be travelling and receiving guests in the coming school year of 23/24. We are open to adjusting the group size (20-30 students), time of travel / visit and common projects to our partner's needs.

**Erasmus+**  
Enriching lives, opening minds.

If you would like to meet us and travel to Berlin with your students, please contact Jana Tokaryk ([j.tokaryk@beethoven-gymnasium.eu](mailto:j.tokaryk@beethoven-gymnasium.eu))
