GOETHE  
INSTITUT

November 3 to December 3, 2021

The Goethe-Institut Philippinen invites you all as the Science Film Festival celebrates its 12th edition in the Philippines with another virtual festival.

A total of 35 Science Edutainment films will be accessible online for FREE as a video-on-demand (VOD) service upon signing up.

**Sign up now!**

Registration starts on October 1, 9am!

➔ For more info about the festival, visit [www.goethe.de/ScienceFilmFestPh](http://www.goethe.de/ScienceFilmFestPh)

The virtual Science Film Festival 2021 is made possible with the help of major partners the DepEd Philippines (Department of Education) and the DOST Philippines (Department of Science and Technology) and our other local partners from Museo ng Muntinlupa, The Mind Museum, Museo Pambata, Philippine Science Centrum, Felta MultiMedia, National Library of the Philippines, Liceo de Cagayan University, and Xavier University – Ateneo de Cagayan in cooperation with the SEAMEO Regional Centre for Science Technology Engineering and Mathematics Education (SEAMEO STEM-ED).

### ABOUT THE FESTIVAL

The Science Film Festival is a celebration of science communication in Southeast Asia, South Asia, Africa, the Middle East and Latin America: In cooperation with local partners it promotes science literacy and facilitates awareness of contemporary scientific, technological and environmental issues through international films with accompanying educational activities. The event has grown considerably since its first edition in 2005, becoming the largest event of its kind worldwide.

The world is facing a global health crisis unlike any other – COVID-19 has destabilized the global economy and upended the lives of billions of people around the globe. In the context and aftermath of the pandemic, health and mental well-being are more important than ever. That is why bringing these

issues out into the open especially at this time is so important and why the Science Film Festival turns its focus on health and mental health in 2021.

Since the health and safety of our viewers is of paramount importance to us, many screenings will only take place virtually this year. The selection of the Science Film Festival 2021 has therefore been made available online as video-on-demand service. Please register to receive the link to the films selected in your country and the password that enables you to stream the films free of charge during the festival period.

By receiving the password, you agree that the link and password cannot be posted on the internet and passed on to third parties. Commercial use, screen capture or downloading of the films is also strictly prohibited. The festival has also provided suggested teaching materials for learning activities connected to this year's theme of health and mental well-being, which complement a number of films and can be found online on the Science Film Festival [website](#).
