

Tandem

© Elly Blue

Tandem: a bicycle for two people. But also: a linguistic exchange between two people of different mother tongues.

If you would like to practice and extend your knowledge of German, you can do a “Tandem” with a German native speaker.

Learning a language with a native speaker is motivating, communicative and intercultural.

Manage your own learning process, learn each other’s languages and get to know about each other’s countries and lives – with a lot of fun! You’re a bilingual team helping and supporting each other, sometimes being the teacher, sometimes being the learner, and you’ll reach your linguistic goals together – in your lunch break, in the evening, at a pub, in the park or whenever and wherever it suits you.

Interested? We look forward to receiving your online registration.
