1. PROGRAMME BACKGROUND

1.1 About the Sub-Saharan Africa, Connect & Create Component

The Sub-Saharan Africa, Connect & Create Component of the Africa-Europe Partnerships for Culture programme is implemented by the Goethe-Institut in partnership with Expertise France and Institut français. This €8 million programme runs for 42 months (2025–2028) and promotes genuine dialogue and cooperation between African and European cultural actors, fostering peer learning exchange, co-creation, and mutual understanding.

1.2 Programme Approach

This component recognises that cultural innovation and professional development strengthen when artists and culture professionals engage across borders. We prioritise peer learning exchange, positioning African practitioners as knowledge creators who shape continental cultural futures. This reflects our commitment to genuine equal-footing partnerships.

1.3 Target Groups

The programme supports African and European artists, culture professionals and cultural operators, with particular attention to emerging practitioners, women, and persons with disabilities.

2. MOBILITY GRANT SCHEME DESCRIPTION

Mobility grants support short-term professional exchanges that strengthen artistic understanding and practice as well as professional networks. Eligible activities include:

Artistic and Professional Development

- Research of cultural heritage, ecosystems, and artistic practices informing creative work
- Co-creation or co-development in any artistic discipline with artists from other countries
- Participation in mentorships, residencies, or structured learning programmes
- Development and reinforcement of international professional relationships

Cultural Exchange and Professional Networking

- Invitations to participate in residencies, exhibitions, or significant cultural events
- Attendance or performance at professional conferences, festivals, or international events
- Professional skills development or training

5. BUDGET FRAMEWORK

5.1 Maximum Grant Amount

€4,000 per mobility grant (before additional support)

5.2 Eligible Costs

The grant covers mobility costs structured as follows:

Travel:

- International and domestic airfare, rail, or other transport
- Flights are calculated at a flat rate of €1500 for travel within Sub-Saharan Africa i.e. intracontinental travel and €1000 for travel between Sub-Saharan Africa and Europe i.e. intercontinental travel. All other travel can be specified by the applicant as flat rates do not apply
- Visa and insurance costs (actual costs, refund basis)

Accommodation and subsistence:

- Pre-calculated lump sums for accommodation and per diem for different destinations and cities
- Lump sums vary by geographic location to reflect actual living costs

When you submit your application, the budget template will provide the applicable rates, including the lump sums for your specific destination. These lump sums cover both accommodation and daily subsistence for the duration of your mobility. Different countries and cities have different lump sum amounts to ensure fair and realistic funding across all destinations.

5.3 Additional Support Available

The following additional support is available and can be requested during the application process. Approved additional support is awarded **in addition to** the €4,000 base grant and is **not** counted against this maximum amount:

- **Family Support:** Funding to enable participation for applicants with family responsibilities (e.g., childcare costs).
- **Disability Support:** Funding for additional costs linked to physical disabilities or accessibility needs.
- **Green Mobility:** Support for environmentally sustainable travel options.

Motivate any additional support needs in your application, with clear justification for the costs you are requesting.

5.4 Co-funding and Budget Realism

Your budget should reflect your individual mobility needs. If colleagues are applying for related mobility, ensure your budget justifies your own specific costs. All funding sources must be declared; we review budgets for realistic cost allocation and necessity. Additional funding sources will reduce the total grant amount. So, if you find your grant to be above €4000 (excluding additional support), state your additional funding that will supplement the grant so that you are within the €4000 grant limit. Applications with amounts exceeding €4000 (excluding additional support) will be excluded from evaluation.

Eligibility Window: Your mobility must begin on or after **1 June 2026**. Applications submitted by 15 March 2026 are eligible for mobility from June 2026 onwards until June 2027.

11. FREQUENTLY ASKED QUESTIONS

Q: Can colleagues or collaborators from my organisation each apply for mobility to the same event?

A: Yes. Each application is evaluated independently based on what that individual will gain professionally. However, if your mobility fundamentally requires travelling as an ensemble or group, rather than as individuals who happen to be attending the same event, explore the performing arts and ensemble mobility grants available through other components of the programme (WP3 and WP1B Performing Arts grants managed by Expertise France and Institut français).

Q: What if my mobility dates are close to the eligibility window?

A: Your mobility must begin on or after 1 June 2026. If an opportunity occurs before this date, apply in a future call cycle.

Q: How does the jury view applications from people working on related projects?

A: Each application is evaluated on its individual merits. The jury assesses what each applicant will gain professionally from their mobility, not group benefits. Realistic budget justification for individual costs is important when applications are linked.

Q: Is language support available if I struggle with English?

A: If language presents a challenge when filling out your application or preparing requested documents, please contact us at eup-ssa@goethe.de.

We are happy to provide support and find solutions.

Q: Can I apply if I don't have a formal invitation letter?

A: An invitation letter is not the only acceptable confirmation. Festival registration, research approval, or any official documentation confirming the activity will take place is acceptable. These documents also support your visa applications.

Q: What happens if I need additional support for family responsibilities or disabilities?

A: You can request Family Support, Disability Support, or Green Mobility during the application process. These are awarded in addition to the €4,000 base grant. Please provide clear justification for your request in the budget.

For additional questions, please contact eup-ssa@goethe.de.
