Who doesn't like a good story?

At Mixtvision, we are convinced that everyone does. It is all just a matter of finding the right one – and the right way to tell it!

Great stories never get old. And the manifold ways in which they can be told shouldn't get old, either. That is why Mixtvision – an award-winning cross-platform publishing & production house – tells engaging and immersive stories in the medium that best caters to their purpose – and the customers' needs, of course.

High-quality storytelling across platforms and target groups is Mixtvision's main focus. We publish story-driven and entertaining content that has been awarded numerous times. Our recent releases reached top chart rankings and were loved by critics. One of our strengths, besides our capacity to finance and market small to mid-sized projects, is that we work as partners in creation and business, especially for up-and-coming developers. We can offer trans-media production pipelines via our in-house movie production and book publishing departments.

We value creativity and innovation – and we just love a good story!

FAR: LONE SAILS

Venture into the great unknown across a dried-up sea. Skillfully maneuver and maintain your train-like vehicle. Master the challenges that lie ahead!

Under cloud-filled skies, the player travels across a seemingly endless dried-up sea, littered with the remains of a once vibrant seafaring civilization. The game's world is largely devoid of life, yet filled with places to explore and history to discover.

While the greater goal of the journey remains to be uncovered by the player, urgent short-term necessities call for immediate action. The train-like vehicle needs to be fueled, maintained, and upgraded to master the challenges that lie ahead ... Take great care of it. It's your only hope: You must. Keep. Going.

THE BIG WORD FACTORY

Read, play, learn, discover, dream: an enchanting picture book-app for children and lovebirds of any age

Paul and Marie live in a land where people hardly ever speak. Words must be bought and swallowed in order to say them. But words are expensive, especially the really good ones. So Paul collects them on the street: “Cherry, Dust, Chair”. He wants to give them to Marie to show her how much he likes her.

“The Big Word Factory” talks about the power of words and language. And about how you say something is often more important than what you say. Several mini-games enrich the story and show curious children the fun of playing with words. The app is based on the bestselling book “The big word factory” by Agnès de Lestrade and Valeria Docampo.

STORY NOW: A HANDBOOK FOR DIGITAL STORYTELLING

A hands-on compendium for everyone seeking to get involved more profoundly with the transmedia potential of their media projects – from conception and production to application.

Since its very beginning, storytelling has always been subject to change. Digitalization is currently putting pressure on the media industry – people want to access content at all times and everywhere. But there's not only a shift in media channels and profit models, even the content itself is changing, just like the production methods.

“Story Now” compiles essays about the digital turn in media by some of the most creative minds in the industry as well as case studies showing best practices of how to handle this massive shift.

Target Group: Media professionals

Genre: Handbook / Compendium / Guide

Stores: Book, E-Book

Partners: Transmedia Bayern e.V., MedienNetzwerk Bayern
