You will find out all about it in this project.

YOUR ASSIGNMENTS

Now choose a song from the Top 10 that you know or that you particularly like. Try singing, whistling, clapping, or drumming the melody.

Too difficult? Then just write down a line from the lyrics or translate it into your language.

MAKE A SHORT VIDEO

1. Briefly introduce yourself: How old are you? Where are you from?
What do you like to do in your free time? What are your hobbies?
What music do you like to listen to? Do you play an instrument?
What role does music play in your life? How often do you listen to music during the day?
2. Sing, hum, drum or clap the melody of the song that you selected from the Top 10 songs of the partner class's country. And don't forget to ask your question about it.

Then post your video. Your teacher will provide the posting location link.

4 

Watch the videos of students in the partner class and guess the name of the songs they play.
In your reaction, state the title and answer the question they asked about the song.
