

BUILDING BRIDGES - BRÜCKENBAU

TEIL 4 – MUSIK GEGEN DEN KLIMAWANDEL

Music has been important to Dave over many years.

Task 1: Look at the photos and think about what decade it might be.

Task 2: Listen to the song.

Task 3: You might like to try writing your own song...

BUILDING BRIDGES - BRÜCKENBAU

Teil 4 - Musiker

Die Lyrics zu Dave Lowe's Climate Song:

*O why oh why did we burn all that carbon
the warnings they... they were so clear
Are we so blind that we just don't see
or is it that we don't care?
We stole our planet from the next generation
it's a crime so grossly unfair
To give the young our load to bear
To give the young our load to bear*

*I was a child just like you -
I grew up on the shore
I felt the rain and wind as they moved me more and more
The Earth Mother called to me - and I was set free
I'm part of her - and that's what is meant to be*

*Because you know we're all part of this -
your soul and your brain
belong to the Earth - just like me*

Yes you know we're all part of this
